With nature
With your community
With others who have similar interests

With professionals

Contribute

Help conserve Idaho's environment
Collect scientific data
Teach children

The Idaho Master Naturalist Program aims to develop a corps of well-informed volunteers to actively work toward stewardship of Idaho's natural environment.

Who can become an Idaho Master Naturalist?

Any adult who enjoys nature and is interested in learning more. If you enjoy outdoor recreation, bird watching, identifying plants and animals, gardening, and supporting conservation, this program is for you!

Idaho Master Naturalists can volunteer at nature centers, give programs to children, help biologists collect data, monitor wildlife, assist at parks and natural areas, or contribute to many other conservation efforts.

Anyone who enjoys and appreciates Idaho's outdoors can be an Idaho Master Naturalist; teachers, hunters, nature guides, farmers, retired professionals, and ...you!

Through the Idaho Master Naturalist Program you will:

- Participate and guide conservation efforts.
- Join a statewide network of dedicated, trained volunteers who work toward conservation.
- Further your education and interest in nature.
- Have an opportunity to give back to your community.

Start an Idaho Master Naturalist Chapter in your community!

If you would like to see an Idaho Master Naturalist chapter in your community, contact us!
